Upcoming Article: Using BIND with Dynamic Loadable Zone (DLZ) Extension

German *nix magazine freX will publish an article of mine covering the use of BIND with the Dynamic Loadable Zone (DLZ) extension.

Some key topics in this essay:

- How do traditional BIND master-slace zones compare to dynamic loadable zones
- A review of the DLZ file system, MySQL and BerkeleyDB drivers
- Load and performance considerations
- Data replication from MySQL to BerkeleyDB

Read more on this in upcoming freX issue 3'2011, available on April 6th 2011.
